

R.A.Tundish.

Chinese *Year of the Rat* is possibly an ideal time to bring to the market a simple economical Tundish that will fulfil many functions.

Due to its tough durable construction it is able to withstand some gruelling locations without the risk of deterioration such as plastics and the damage that is possible to copper and valuable non ferrous materials.

**NEW
PRODUCT**

The Mod-Tec **R.A.Tundish** has been evolved to cater for the many areas where the Inwall Tundish is not able to be satisfactorily used e.g.:

- Heavy Duty for casting into slabs
- Ideal for setting up under commercial refrigeration
- Suitable for Air-Conditioning units or plain external locations where tough & durability is necessary.
- Simple & Economical.
- Attractively polished for those locations that call for a high finish.
